Comments: Humboldt-Toiyabe National Forest

Dear USDA,

Firstly, this is a massive area (54,000 acres of National Forest System land) and deserves an EIS not an EA.

Chipping away at the protections of our National Forests sets a dangerous precedence, encourages the future degradation of biologically sensitive areas that we deeply value and need more and more.

Therefore I ask ~ Do not propose these lands for oil and gas leasing by the BLM in a future BLM lease sale.

Thank You,

Bonnie MacRaith
