Title:

Comments: Ruby mountains

This email is addressing the proposal to destroy the beautiful Ruby Lake National Wildlife Refuge, the Ruby's & surrounding landscape, wildlife, & recreation. Why in God's name would this even be considered? Didn't South Dakota make a point to anyone? Isn't it enough that drilling in our oceans has destroyed fish, mammals & coastline for many many years? Now someone is considering allowing drilling in the Rubies!? I say "NO".

Please don't destroy the mule deer, sage grouse, chucker habitat & trout & more. I say 'NO'.

Please don't allow this to happen! All for the mighty dollar for people who don't care who or what they destroy. I say 'NO'!

This makes me sick to my stomach!
