Comments: Ruby Oil and Gas

Dear Josh Nicholes,

We must stop any oil and gas exploration or drilling in the Ruby Mountains. There are few enough pristine places left on earth. We don't have to continue to be terrible stewards of the earth and make a mess of every place. Even oil and gas exploration causes contamination. We need to be putting our focus on non petroleum energy sources, not spoiling the last parts of the earth that haven't been destroyed.

One day, we'll all be sad for what we've lost.
