Title:

Comments: I hike into Blue Pool several times a year. I would like to see the parking lot paved and enlarged.

Also, please put in a restroom and maintain it. I would also suggest that day use permits would be helpful.

Sometimes there are way too many people on the trail and too many mountain bikes. Limited use would increase the pleasure of hiking this portion of the McKenzie River Trail. I heard that a separate trail might be built for the bikes. I would like this. Hiking and biking on the same trail can be very dangerous.
