Comments: Forest plan revision #51806

I enjoy the National Forests around my home. I fish, hunt, camp, ATV and hike. I choose to live here for the close access of the UNC, Gunnison and Grand Mesa and I feel that we need to continue to allow these activities. I feel that there are not sufficient camp grounds in some areas. Camp areas can be made very camp friendly with just some gravel so we are not eroding the area instead of having them closed off to campers.

Our Colorado Government seems to cater to the Eastern Slope and many camp areas closer to Denver than our area here on the Western Slope and I feel that we need to maintain our area and improve it so we can continue to enjoy our National Forests. ....!
