Title:

Comments: Altho Blue Pool is known to the general public now I believe that a paved parking area would encourage those who have no interest in it except free recreation. As so many beautiful places in Oregon the more the public has access to them the more they will be ruined. I would like to see a VERY restricted access to this area. I would like to see armed guards but I supposed that is just an old lady talking that has seen just too much of my beautiful Oregon destroyed.
