Comments: Hello,

I am a new resident to this area and I first want to say how much I appreciate all the hard work and dedication that the U.S. Forest Service does for our forests all around the country.

I am a full-time resident and I am truly concerned about the condition of this area of the forest as it is literally directly across the street from my hoise. There are several badly damaged and dead trees and brush throughout that causes great concern for me and my family as the potential for a devastating fire could truly impact our family severely in a negative way.

Our other concern is that this area is truly lacking in the beauty that much of the surrounding forest has. We would like to see the damage and dead trees and brush cleared out, the planting of new trees take place and attention given to any of the nature trails.

We are in active family and would love to do our part whatever that may be through your direction to see this process take place sooner rather than later as it is our understanding that this has been a long time coming and in the works for several years.

Please feel free to contact me at anytime.

Again thank you for the service that you provide,
