Comments: My family and I reside in Eagle, Colo. and we were very excited to see Beaver Creek's proposal to create a family ski zone at McCoy Park.

We have a young son who is learning to ski and absolutely loves it. The idea that we could take him to McCoy Park for a beautiful, non-stressful ski day is really neat.

I do appreciate that you will consider any vegetation management necessary - I know there aren't a lot of trees in that area to begin with so that's good. And I'm happy to hear that Vail Resorts will honor the elk calving closure and will not allow any summer activity to go in there.

Beaver Creek already does an amazing job to create a family resort atmosphere - and creating more much-needed beginner and intermediate terrain will only enhance that. Thanks for considering my support of the Beaver Creek Resort - McCoy Park Terrain Development.
