Comments: Thank you for the opportunity to comment. This area will be a wonderful use of our public forest! I have grandchildren and guests with kids and grandchildren, and the biggest problem we face is adequate terrain for beginners to learn and enjoy other than on access roads down the mountain.

What better use of our forest lands than for the creation of a sanctuary for winter sports with this glade!

Thanks, and I am glad to endorse and express my strong support of this plan.

Regards,

Curtis A. Krizek
