Comments: I am writing to express my concern and objection to the proposed changes to the McCoy Park terrain. This recreation space provides important access to for hikers and snowshoers, as well as to those who can not or choose not to ski and/or snowboard. The current use of the land has relatively low impact on the terrain and wildlife. Adding lifts and snowmaking equipment to a resort that is not operating at full capacity does not make sense at this time. It disrupts plant and wildlife, it takes recreation space away from space from those who cannot or choose not to ski, and it whittles away from the precious little undeveloped land that humans have access to. As a homeowner that is closely proximate to this space, I strongly object to this development plan.
