Title:

Comments: I fully support the Golden Peak expansion project. As a ski racer, this expansion will allow me and many others to follow our dreams. Ski and snowboard club Vail is growing rapidly and is in desperate need of more hill space for all of the athletes. Also this expansion will bring more diverse terrain to our venue which will allow us to become better overall skiers and it will allow us to host more competitions which will bring more revenue to SSCV, Vail Resorts, and the Town of Vail. This expansion really needs to happen. Overall it will benefit more than it will hurt.
