Title:

Comments: * More dispersed camp places should be allowed and created.

* Dispersed camping areas should not be closed unless new places are opened to take their place.

* With 'Baby Boomers' retiring, they need more places to recreate. More areas should be opened to motorized trails.

* Some areas have routes that have been closed in the past. Some of these trails should be 're-opened'.

* New wilderness areas should only be created in places where new routes or mineral extraction is not possible.

'Wilderness Study Areas' should be reverted to public use.

* Many user groups are available to help with trail cleanup and maintenance. Let us help!
