Organization:

Title:

Comments: I support the Gold Peak improvements at Vail ski area for racing and race training. The programs offered by SSCV at Vail are some of the best in the world and as a member of SSCV I have experienced how crowded the race training courses get and how SSCV training has been limited by lack of space. I have also experienced first hand the high level of coaching and great development opportunities afford by SSCV to the all participants. The expansion will give further opportunities to young athletes and masters alike and will give SSCV and Vail additional space to continue to be one of the premier race training organizations in the world. I also feel that Vail and SSCV have and will treat National Forest Land responsibly. For these reasons I support the program.
