Title:

Comments: I live in the four corners area of New Mexico. Colorado is a favorite place to vacation with our ATV's and motorcycle. We purchase the out of state permits every year to go and ride in Colorado. We have spent several week long vacations in the Grand Mesa and Uncompahgre forests. We are purchasing fuel for our vehicles and spending money for food and other supplies needed while camping along with eating at several restaurants. These areas are our favorite because they include several miles of 50" trails. These trails can also be used for non OHV use. We always respect other users. If these are closed to motor vehicles it will be less likely we will travel, camp and spend money there. Our time and money would be better spent in Utah.
