Comments: Beaver Creek Resort has been a long-time favorite resort of mine and I am writing in support of the Beaver Creek Resort - McCoy Park Terrain Development project. With the annual increase in skier traffic at the resort, I believe there is a need for additional beginner and intermediate terrain for the many families that visit the Resort. I worry about skiing safely so I can imagine that families with small kids would find this area perfect for learning or brushing up on skills.

When I learned McCoy Park would add about 250 acres to the resort mountain's skiable terrain and include 17 (mostly groomed) trails, with approximately 75 percent (190 acres) of this terrain rated beginner, I was excited as more of my friends would have a place to work on improving and learning ski skills. My family and friends also enjoy snowshoe and Nordic trails, which I understand, also will be offered as part of this project.

The proposed Park is a significant example of Vail Resorts' commitment to invest in its mountain resorts to elevate the experience for its guests and employees. Beaver Creek has been consistently rated as one of the top family-oriented ski areas in the country and this would only make it better.

Thank you for your support in approving this plan.
