Title:

Comments: I am a property owner in Lionshead with expansive views over Golden Peak from our apartment

My daughter is also a young ski racer with SSCV

I fully support the expansion of Golden Peak lift facilities and the race and training arena

The facilities planned will substantially enhance training space, time, availability, quality, lengthen the season for training and allow Vail to produce more talented athletes and attract athletes and teams to train and race from throughout the US and the world

In the context of views and ours are from Golden Peak to Beaver Creek the proposed additional facilities will not in my opinion detract at all from the landscape

Thank you for the opportunity to express my view
