First name: Antony

Last name: Olin

Organization: Afton Alps Alpine Club

Title: Program Director

Comments: Golden Peak represents a training ground for teams beyond the borders of Central Colorado. As a Midwest team, Golden Peak is our 2nd home - we train their regularly. It is a vital component to elevating our skiers skills so they have a chance compete on a higher level, nationally and internationally. This project reaches far beyond a local benefit - it's really a national resource. The expansion project doesn't just make it better for training, it creates a safer situation that is currently tested with close-quarter training. Our hope is the project keeps moving forward and that soon, we will have a safe, world class training environment second to none.

Thank you, Antony Olin
