Comments: Dear US Forest Service,
Thank you for considering the Golden Peak Expansion and the positive effect it will have on our athletes.
I am a Vail local of twenty years and I support the Golden Peak Expansion. It will provide the much needed additional training space. It will improve the quality of training and a safer environment for everyone. The Expansion will also help our athletes have access to early season training in our own backyard. Overall, I believe the expansion will be a much needed improvement for our local and visiting athletes.
Thank You,
Julie Leever
