Comments: Hello,

I am in favor of the Golden Peak project.

Vail resorts has been become international well known as race friendly in Vail and BC.

We have the advantage of attracting national ski teams for training that directly benefits our younger racers.

Training side by side gives our racers the advantage of seeing technique, character and hard work coming together at a very high level.

That being said our venue is too small for the events that Vail has been and is hoping to hold in the Golden Peak area. With many race teams training and then adding the snowboarding venues it is just too much in one area to continue to hold safely.

Safety should be the major reason this project is approved!

The project also continues to concentrate these events on one area so that the public is safely away on the rest of the mountain.

I have seen the projected photos and I believe that the beauty of the mountain will be maintained in a reasonable fashion.

Please approve this project.
