Comments: Bogus Basin Snowmaking SUP Projects Phase 1 and Bogus Basin Snowmaking Project Phase 2

Good afternoon,

I'm weighing in on the positive effect that snow making at Bogus Basin would bring to our community. I represent World Cycle & XC Ski in Boise. Our business has over 5,000 customers that value skiing as an outdoor activity. Bogus Basin does a fantastic job of making skiing fun and affordable. I couldn't imagine our community without it.

We have been in business for over twenty two years and realize the need for snow making. In past winters where snow came late or in marginal amounts Bogus Basin's has struggled. Other ski areas across the country that have added snow making are in a much stronger position.

Bogus Basin is such a huge part of what makes Boise special. I'd love to see Bogus Basin continue to be part of our vibrant outdoor community. Making snow will ultimately safeguard it's future.

Sincerely,

Tomas Patek
