Comments: Dear Sirs, I was pleased to hear that the Granite Basin/Cement Mountain Wilderness area is back for consideration. We moved to the area over 20 years ago, in large part due to the proximity of the other high-quality designated Wilderness Areas and think this new protected status would be a wonderful addition to the current inventory. I realize the challenges this approval might face under the current administration but am hopeful that it could still happen. If there is anything more I can do to support this proposal please let me know.
