Title:

Comments: I am writing this request in reference to the Grand Mesa, Uncompahre, and Gunnison National Forests. I recently became aware of your mandate to rewrite the management plan for these lands. As an avid user of public lands in Colorado, I hold these public wild places close to my heart. The use of National Forest land as a public resource for recreation is priceless. I would ask your planning team to please make your decisions and create a plan going forward that is centered on wildlife, conservation, and habit. Additionally please keep in mind how important and vital public access is.

Best regards

Tony Ihrig
