Comments: After getting an e-mail from a conservation organization that I am a member of, about this plan revision, I had to submit a comment.

-When I was just a small whipper-snapper, for fun, my dad would take my brothers and I on just long drives to look for wildlife on the Grand Mesa region. I was raised a hunter and fisherman(I'm a descent fly-fisherman, and a horrible hunter). The year 1993, our family bought 44 acres on side of the Grand Mesa. I had spent my childhood, not only on the property, but the entire mountain. Even though I now live on the other side of the state, I continue to hunt on the Mesa almost every year, with my friends and family. If these public lands shrunk in any way, I would be devastated. Making a profit from our public lands is great for a minute, but preserving them is much better for the long run. Please consider making these areas better, or at least leaving them the same as they are currently. Thank you.
