Comments: I'm an Arizona resident and avid dual sport rider, and I'm writing to voice my support for the proposed Tumacacori Single-track trail system. Southern Arizona is direly lacking a designated single-track trail system open to motorcycles, and approving the proposed Tumacacori Trail system will help mitigate this shortage for local enthusiasts, as well as provide economic benefits to nearby towns and businesses as word spreads about this trail system across the OHV community.

Additional factors that favor the creation of this proposed trail system include:

- 1) It is located in a semi-remote area which affords minimal disturbance and conflict with other user groups.
- 2) The terrain and soil are acceptable for sustainable motorized recreation over time.
- 3) The trail system links with exiting MVUM (motor vehicle use map) roads affording long distance loop rides.
- 4) It is being proposed in an area designated for this form of recreational use.

Thank you for your consideration,

Gregory Baumann
