Title:

Comments: My name is Kyle Anne Nelson, 3727 Cosmos Lane, Fort Collins, CO 80528 (970)692-4383 and I am writing to comment on the Beaver Creek Resort - McCoy Park Terrain Development.

As a child of the Vail Valley and annual Epic passholder, I wholeheartedly support the McCoy Park proposal. I grew up skiing Beaver Creek and now my children are as well. The expanded beginner terrain area is a huge plus for families like ours. As Beaver Creek has experienced steady growth in visitors and skiers, more space that is devoted to little ones and new skiers is important. I want my children to feel just as safe and confident learning to ski in Beaver Creek as I always have. Expanded beginner terrain will translate into another strong generation of lifelong Beaver Creek skiers.

Another appeal of the McCoy Park expansion is the reconfiguration of nordic and snowshoe trails. I skied on the nordic team for Battle Mountain High School back in the 1990s and I'd be thrilled to experience the new offerings promised in the proposal. This would attract more of my friends and family as well who love the mountains but don't downhill ski.

I commend Vail Resorts and Beaver Creek Resort for the thoughtful and conscientious proposal that will expand access to the high quality mountain and family experience the Vail Valley is known for, with great care in serving the community while also protecting the environment and wildlife.

Thank you,
Kyle Anne Nelson
