Comments: Tell the Forest Service to Protect Wildlife

May 29, 2018

GMUG Plan Revision Team

Dear Revision Team,

The nations wildlife & their habitat's protection certainly should be the Forest Service's main priority. NOT what resources can be removed from the earth! Truly revising the management plan would mean MORE protection for our actual natural resources (wildlife & habitat). Allowing corporations & politicians to make the decisions on this revision would be one more mistake made in regard to our wilderness. There has been enough encroachment already into national monuments, refuges & wilderness areas. This has to stop! Please make sure this plan deals with the growing threats to the regions wildlife & their environment.

Sincerely,

Ms. Maggie Frazier
