Comments: I am in support of the proposed McCOy Terrain Development at Beaver Creek Resort #52650. I have lived in Eagle County and Avon area since 1997 and use McCoy Park regularly in Winter and Summer. In particular I'm an avid cross country skier and have done both classic and free style skiing at McCoy the past 20 years. I find that area to be under utilized and under appreciated. I'm in agreement with the proposed lifts and that the terrain will be excellent for families and to learn to ski in a controlled and perhaps less congested area of the ski mountain. I ask that the Nordic uses be carefully considered and that nordic terrain be expanded and not reduced by this proposal. I also ask that there be additional biking and hiking trails in McCoy Park as part of this proposal. In particular 'low angle' beginner to intermediate mountain bike single track trails should be considered in this area as there are limited trails on Beaver Creek Mountain, and there are few trails in this area of the mountain specifically for mountain biking. If there is new development in this area I feel important that it be 'year round' and not just focus on the winter uses. In the summer this area could become an important area to learn how to mountain bike single tracks and to increase outdoor recreation and fitness in a safe environment already part of the Beaver Creek lease and USFS permit boundary. Essentially looking for a net benefit from the project and that energizes that area of Beaver Creek which is underutilized in both summer and winter. Regards, Pedro Campos
