Comments:

I'm an avid horseback rider and especially enjoy riding in the backcountry of the Gunnison National Forest. To avoid conflicts with motorcycles and mountain bikes I often ride in Wilderness areas. I feel fortunate that GMUG recommended the Granite Basin/Cement Mountain area for Wilderness protection in its 2007 draft plan. Granite Basin Wilderness will provide close proximity safe haven horseback riding in addition to the opportunity to experience nature and solitude.

I support Wilderness designation for Granite Basin.

Thank you,

Anu Jankeri
