Comments: Tell the Forest Service to Protect Wildlife

May 29, 2018

GMUG Plan Revision Team

Dear Revision Team,

I am an advocate for conserving America's public lands. I urge the Forest Service to include strong protections for wildlife, wildlands, and water in the revised management plan for the Grand Mesa, Uncompahgre, and Gunnison

Wildlife is under so many pressures in today's world, and habitat is at a premium. Several threatened species live in this area. It is imperative to protect species diversity in the US, and to set a good example for other countries. Furthermore, protecting wild lands helps with conserving critical water reserves.

I encourage the GMUG Plan Revision Team to develop and adopt a management plan alternative that maximizes conservation for the wildlife that depend on these forests and their habitat.

Sincerely,

Ms. Susan Palmer
