Comments: GMUG Wilderness Proposal

I oppose any more wilderness in this proposal. This is public land and Colorado already has 4 million acres of wilderness. Everyone in this area loves multi use access. If this pushes through it's a land grab effect where it will not end, and no one will be able to use any land in the future for things like snowmobiles and OHV's. The motorized recreation in this area brings in millions of dollars and would hurt the local economy if this wilderness bill pushes through. Thus destroying families livelihood.

Thanks

Jordan
