Title:

Comments: This plan is half baked at best! ASC wants to remove the absolute best gladed skiing on Ajax to groom it and cater to their Aspen Mountain Club Members. The snow and terrain on the east side is unique and should never be developed in this way. ASC is also claiming the new lift will eliminate access issues to the poorly built sundeck restaurant but the truth is they will be crossing the actual county road and the grade is really no better than their current layout. PLEASE hold them to their morals on this it really does not make sense.

Thanks,

Mike Kashinski
