Title:

Comments: I support a Wilderness Designation for the Granite Basin/ Cement Creek area. My family has been in Crested Butte CO since 1878, and have watched our wilderness slowly be eroded by encroaching business interests, motorized vehicles and bicycles. The ATVs in particular have caused widespread erosion and noise pollution in our forests.

Many people today really have never experienced Wilderness and do not know what it is nor it's value. Please make sure that future generations in this area have the joy of enjoying unspoiled, thriving natural wilderness. Please ensure that the animal and plant species found there are allowed to thrive in peace. Thank you for designating Granite Basin/Cement Creek a wilderness area.
