Comments: It is very important for the Forest Service to know that you want a wilderness designation for this area. They want to hear from us. It is the LAST possible wilderness area in the county. Using your own words, here are some points the Forest Service is interested in hearing from you:

- I support a wilderness designation for Granite Basin
- I support the Forest Service 2007 Wilderness recommendation for Granite Basin
- I want to protect primitive lands for current and future generations
- I want wilderness so everyone can enjoy nature and solitude close to a population center
- I support wilderness in this area for recreational activities such as hiking, horseback riding and cross country skiing
