Comments: GMUG Forest Plan Revision - Scoping Comments

Dear GMUG Forest Planning Team:

I really enjoy the non-motorized use on Grand Mesa. I've hiked and climbed in many different places in all 3 of these areas, and the less motorized use, the better.

Recreation is a key social and economic driver on the GMUG National Forest and I would like to see recreation addressed pro-actively through the Forest Planning process. Through Wilderness and special area designations, the Forest can protect and enhance recreation experiences for users and ensure these landscapes remain intact for future generations.

There is a need and opportunity for additional wilderness, Wild & Scenic Rivers, and other designated areas on the GMUG. Designations in the Citizens' Wilderness Proposal (<https://www.gmugrevision.com/>) and Gunnison Public Lands Initiative (<http://gunnisonpubliclands.org/>) should both be included in the revised forest plan.

Sincerely,

Jeremy Hakes
