Comments: As a business and home/land owner here in Crested Butte, as well as a WSU alumni, I support CBMBA/Gunnison Trails and the GPLI.

I am fully against taking away Eccher Gulch trail for a proposed wilderness. For the past 6+ years, I have personally removed fallen tress from this trail and have sacrificed regular trail work to make this trail what it is today. There is no one out there who loves this trail and cares for it, more than I do. To remove this trail due to local property owners from our community would be a shame. I am happy to comment more and have a lot of information on this area, so please keep me in the loop on how I can help with solutions on keeping this historic trail.

Sincerely,

Brandon Ontiveros
