Title:

Comments: I strongly support the use of public lands for single track non-motorized travel wherever possible. Further, I would like to voice my support for the trails master plan available on the CBMBA website to connect single track throughout the valley to reduce the amount of road cycling required to access many of the valleys trails. Mountain biking is an economic driver for our community and CBMBA has become the leader in trail stewardship, sustainable building, and user education.

Thanks
