Comments: As a cyclist and hiker, someone that pedals and hikes over a hundred days a year in the Crested Butte area, It's absurd that a group of people would support taking away access that we have had for years. Not only is mountain biking a huge economic driver, the trails in the area are being maintained by the cyclists and dirt bikers in the valley. Simply put, without cycling access to that area, the heart and soul of our bike community, network of trails, and economic driver would be ruined forever.

Thanks for your time and energy.

Best,

Neil
