Comments: I am a strong supporter of CBMBA/Gunnison Trails and the GPLI. The GPLI has been a collaborative approach with many various user groups. I fully support the GPLI approach to the GraniteBasin/Eccher Gulch area. The Special Management Area proposed by GPLI in the Granite Basin/Eccher Gulch area is a unique tool in that should be taken advantage off as it can provide all the protections of wilderness, while allowing certain activities like mountain biking.

Thank you for the opportunity to comment in the Planning Process.
