Comments: Regarding GMUG forest plan revision #51806:

I support Crested Butte Mountain Bike Association (CBMBA), Gunnison Trails, and the Gunnison Public Land Initiative (GPLI) in their proposed management prescriptions. I support land use practices that are inclusive of current user groups. Specifically, the Granite Basin / Eccher Gulch area should not be changed to wilderness status as being proposed. Please consider all user groups in your forest plan revision and current planning process.

Thank you,

Beth Shaner
