Title:

Comments: I support CBMBA/Gunnison Trails and the GPLI. Mountain Biking in Crested Butte and the surrounding area is a key component of not only the economy, but also our lifestyle. A collaborative approach is much better than listening to one private group that's looking to increase their property values by turning certain areas into wilderness. Please work with CBMBA and the Gunnison Trails organizations to find the best solution for the majority of the people, NOT the people with the most money or loudest voice.
