Title:

Comments: I strongly support the collaborative efforts and recommendations of the Gunnison Public Lands Initiative (GPLI). GPLI is a diverse and collaborative group of stakeholders that has worked hard to represent the varied interests of Gunnison County. I believe that mountain biking is a positive impact on our forests, represents incredible amounts of volunteer time and stewardship, is an economic generator for our local economy. I do not support a new wilderness designation in the Cement Creek area which is well known and widely used by a variety of sportsman and recreationists for activities that are not permitted in wilderness. Thank you for your consideration.
