Comments: Hello,

As a local, a community member, an avid backcountry user, and a member of Crested Butte Search and Rescue, I would like to express my support for continuing to allow for the wide variety of backcountry users and their variety of means of travel, both motorized and unmotorized. I also support maintaining the current wilderness boundaries in the area, while still protecting the public's right of access to these national forest areas. Please consider continuing to allow for the variety of users that the current policies allow for. Freedoms like this are essential to mountain communities like ours. Thanks for your time and consideration.
