Title:

Comments: I do not believe that moving this recreation area to wilderness only area is the correct move to take at this time. There is no good reason that a special management area cannot be utilized so that all recreation users can be happy. The local mtn bike associations pour more volunteer hours than any other recreational group in the valley into our public lands and open space. Please consider the impact of all recreational users when this decision is made, and how much Crested Butte Mtn Bike Association does to maintain the trails for all users to enjoy.
