Comments: My wife, Mary Frame, and I are in total support of the Forest Service 2007 Wilderness recommendation for Granite Basin. As we are currently in the process of obtaining a Conservation Easement on our ranch at Jacks Cabin (The Roaring Judy Ranch), it should be apparent that we are concerned about protecting lands for current and future generations. The wilderness areas should be available for everyone to enjoy nature and recreational activities. If we don't protect these lands now, there will not be opportunities to do so in the future.

Please show we are both in support of a wilderness designation for Granite Basin. Thank you.
