Comments: Stop shutting down trails and making them 50" only. I've been on both the Unc and Grand Mesa all my life and the amount of trails being shut down is ridiculous! I'd like to give my kids the same opportunity growing up that I did and this is already putting a damper on the beautiful country they have to ride and hunt. The back country 4 wheelers and snowmobilers are the ones that respect the trails and pick up after others. We are the ones that respect our land so please keep the trails open and land available to us.
