Comments: To whom it may concern,

I have lived in the Crested Butte area for over 30 years and raised my family here. I'm an avid mountain biker, hiker, backpacker, skier and outdoor enthusiast. I'm writing to let you know that I support the forest service wilderness designation for Granite Basin.

I feel that wilderness designations are so important to preserve pristine environment and quiet non-motorized space for humans and wildlife alike. Undeveloped land should be protected for current and future generations. It is too precious to lose.

Thank you for your consideration.

Joan Swift
