First name: Linda

Last name: Keno

Organization:

Title:

Comments: I object to any more projects such as the East Fork Scott Project. This is nothing more than another lock it up and watch it burn scam. Instead of locking it up under the pretense of saving some critter maybe you should get off your hind quarters and actually do some road maintenance and salvage logging to remove dead and diseased trees. The USFS has become a liberal extremist environmental activist organization using taxpayer funds to remove citizens from rural areas. Enough is enough! NO ON THIS PHONY PROJECT!

Sincerely written

Linda Keno
