Comments: Hello Andy and Brett

Thank you for providing the information on your current project in Manchester Center, VT. As an avid outdoors man, hunter, bird dog owner and civil/environmental engineer I found it very interesting. I would like know if there is opening for some type of volunteer work with projects like this. I have been a member of the ruffed grouse society for about 5 years and have volunteered as a guide for numerous grouse hunts in NY and Pa. I am not a biologist but I would really enjoy helping in the planning and implementation any projects like this. I feel my experience as an engineer and hunter could be of great help to the team and would like to talk to either of you if you feel I could be of help to either of you.

Sincerely

Robert M. Drew, PE
