Comments: Wayne Management: ATVs?

Hi!

I have reviewed the Wayne's ATV website section at <http://waynenationalforest.com/wayneatv.htm>

I have also dipped into the Wayne's 2006 Management Plan but am unable to easily find any info about ATVs there.

Can you help direct me? https://www.fs.usda.gov/detail/wayne/landmanagement/planning/?cid=fsm9_006005

I assume that the Wayne trails are also taking a beating since the ATVs that run along my property boundary are tearing the old road up, preventing access to my private land and also encroaching into my private land when they don't feel like going through the mud puddles they have created on the public road.

They are causing harm to the riparian corridor within my forest stewardship acreage and I am having to spend my personal money, as well as USDA/NRCS money, to address the ATV issue here.

What are the rules in the Wayne regarding trail management practices?

Who pays for maintenance and repair of the trails?

I have picked up the Wayne ATV issue as part of my participation in the revision process given my related private land deliberations.

However, I am wondering if you have a public participation game plan for the review/revision process yet.

Are you going to start at the beginning of the 2006 plan and go from there?

Thank you!

Kathy Jacobson, RN
