Comments: To whom it may concern,

The Rockstars Motorcycle Club has worked on building and maintaining many miles of OHV trails in the Tonto National Forest for over 20 years and it is wonderful to hear of the possibility of new trails being built in the Coronado National Forest. I know the Arizona off-road motorcyclist community appreciates the opportunity for more access, and I know as a member of that community, that we will work together with the forest service to ensure those trails are maintained and used appropriately.

Thank you for your consideration

Todd Jarman
